Date 2021-09-21 19:20

You are breaking the law by requiring NB population to show proof of full vaccination and government identification to access most non-essential businesses, services and events. You are essentially forcing Canadians to be vaccinated - a medical treatment, which violates Canada's supreme law - the Constitution Act, 1982. You, Quebec, Alberta, Ontario and other provincial governments who are requiring vaccine passports are violating Canadians' constitutional right to refuse medical treatment & the right to make "reasonable medical choices".

Section 52(1) of the Constitution Act, 1982 states that any federal or provincial law that is inconsistent with the provisions of the Constitution is of no force or effect. Statutes which conflict with the Constitution are invalid in the most radical sense; they do not become law.

Section 7 of the Constitution of Canada includes the right to refuse medical treatment & the right to make "reasonable medical choices" without threat of criminal prosecution.

1. Everyone

"All individuals physically present in Canada will benefit from the protection of section 7 (Singh v. Minister of Employment and Immigration, [1985] 1 S.C.R. 177 at page 202; Charkaoui (2007), supra, at paragraphs 17-18)."

2. Life, liberty and security of the person

(ii) Right to liberty

"Section 7 protects a sphere of personal autonomy involving "inherently private choices" that go to the "core of what it means to enjoy individual dignity and independence" (Godbout v. Longueuil (City), [1997] 3 S.C.R. 844 at paragraph 66; Association of Justice Counsel v. Canada (Attorney General), 2017 SCC 55 at paragraph 49). Where state compulsions or prohibitions affect such choices, s. 7 may be engaged (A.C. v. Manitoba (Director of Child and Family Services), 2009 SCC 30, at paragraphs 100-102; Blencoe, supra at paragraphs 49-54; Siemens v. Manitoba (Attorney General), [2003] 1 S.C.R. 6 at paragraph 45) This aspect of liberty includes the right to refuse medical treatment (A.C., supra, at paragraphs 100-102, 136) and the right to make "reasonable medical choices" without threat of criminal prosecution (e.g. fines): R. v. Smith, 2015 SCC 34 at paragraph 18. It may also include the ability to choose where one intends to live (Godbout, supra), as well as a protected sphere of parental decision-making for parents to ensure their children's well-being, e.g., a right to make decisions concerning a child's education and health (B.(R.), supra, at paragraph 80)." Canada's Department of Justice

You are also committing fraud. You know new cases of COVID-19 are the result of people getting tested after Pfizer-BioNtech and Moderna vaccines makes them feel ill. Testing positive indicates that they've developed antibodies in response to their vaccination.

Health Canada website states that "our body makes antibodies after it's infected by a virus or other infectious agents, or after you receive a vaccination. ... If you have a positive serology test result, it's likely that you previously had a COVID-19 infection and that you developed an antibody response to the virus. It may also indicate that you developed antibodies in response to vaccination."

"Serological testing detects the presence of antibodies, not the presence of the SARS-CoV-2 virus. This testing is also not to be used to diagnose infection."

Government of Canada

That means millions have been intentionally misdiagnosed as having COVID-19 infection to assist Germany and the UN obtain \$billions under cover of Germany sponsored COVID-19 biological warfare attack.

The overwhelming majority of COVID-19 test kits used to diagnose new COVID-19 cases in Canada, the US, the UK, the EU, Asia, Africa and throughout the World "do not detect the virus itself. Instead, they detect the antibodies produced in response to an infection ... Serological testing detects the presence of antibodies, not the presence of the SARS-CoV-2 virus. This testing is also not to be used to diagnose infection." Government of Canada

If serological/antibody test kits do not detect the virus that causes COVID-19 then logically and factually millions of Canadians, Americans, British, Asian, African, and European populations weren't/are not being tested for COVID-19 and they haven't tested positive for COVID-19.

You, Health Canada, the CDC, the WHO (the UN) and Ontario Premier Doug Ford, Nova Scotia Premier Scotia McNeil and foreign governments and their health authorities have all used the results from those antibody testing kits to declare a public health emergency and to justify lockdowns despite the FDA, the CDC and Health Canada, etc., all stating:

"Results from antibody testing should not be used to diagnose or exclude SARS-CoV-2 infection or to inform infection status."

You are committing high treason and treason because you are assisting an enemy Germany and the WHO infect Canadians with the 2093 patented SARS-CoV-2 coronavirus. Virologist added the human herpes virus protein ORF10 to the SARS to make SARS infections relapse. They did it for the WHO. In 1972 the WHO called for/recommended virologists develop the means to prolong virus/coronavirus infections:

"An attempt should be made to see if viruses can in fact exert selective effects on immune function. e.g. by depressing (to diminish the activity, strength, or yield of) 7S (IgG) versus 19S (IgM) antibody, or by affecting T cell function as opposed to B cell function. The possibility should be looked into that the immune response to the virus itself may be impaired if the infecting virus damages, more or less selectively the cells responding to the viral antigens. If this proves to be the case, virus-induced immunodepression might conceivably be highly instrumental in prolonging certain virus infections, such as murine leukemia, hepatitis, ..."

Bulletin of the World Health Organization, Volume 47, p.259, 1972, Recommendations (3)

Virologists genetically engineered the SARS coronavirus. The human herpes virus protein ORF10 was encoded into the SARS coronavirus to make the novel SARS-CoV-2 - created in 2003 patent US-2006257852-A1, assigned to CHIRON CORP (US) which was acquired by Novartis (Switzerland). The herpes virus ORF10 protein was encoded in SARS to cause it to prolong SARS infections.

The WHO's COVID-19 Global literature on coronavirus disease stated that the severity of COVID-19 is enhanced by the human herpes virus protein ORF10.

"Could the severity of COVID-19 be enhanced by ORF10 accessory proteins?"

"uniqueness of ORF10 and predicted intrinsic characteristics support possible involvement of ORF10 protein in giving COVID-19 its specific characteristics like spread and virulence" WHO

patent US-2006257852-A1

"The invention relates to nucleic acids and proteins from the SARS coronavirus. These nucleic acids and proteins can be used in the preparation and manufacture of vaccine formulations, diagnostic reagents, kits, etc."

"Accordingly, the invention further includes a SARS virus subunit vaccine comprising a fusion protein. Preferably, the fusion protein comprises a first amino acid sequence encoded by a SARS virus polynucleotide sequence. SARS virus polynucleotide sequences which may encode said first amino acid sequence include one or more of the SARS virus polynucleotide sequences identified in this application and fragments thereof. "

"The fusion protein may comprise an amino acid sequence of a SARS virus protein or a fragment thereof. Said SARS virus protein may be selected from one or more of the group consisting of the following SARS virus proteins: P28, P65, Nsp1, Nsp2 (3CL protease), Nsp3, Nsp3, Nsp4, Nsp 5, Nsp6, Nsp 7, Nsp 8, Nsp 9 (RNA polymerase), Nsp 10 (helicase), Nsp 11, Nsp 12, Nsp 13, Spike, Orf 3, Orf 4, Envelope, Matrix, Orf7, Orf8, Orf9, Orf10, Orf11 ... " Patent US-2006257852-A1

Patent US20060257852A1

Classifications

"New viral proteins or individual genes encoding said proteins, as well as new structural or functional aspects of known viral proteins or genes."

"These results indicate that ORF10, like its HSV-1 homolog VP16, is a transactivating protein despite the absence of sequences similar to the VP16 carboxy-terminal domain. The transactivating function of the VZV ORF10 tegument protein may be critical for efficient initiation of viral infection" 1993 Journal of Virology published study

"Nuclear export of host mRNAs is critical for proper cellular functions and survival. To mitigate this effort, viruses have evolved multiple strategies to inhibit this process. Distinct to the generally nonselective inhibition mechanisms, ORF10 from gammaherpesviruses blocks nuclear export of selective mRNAs by forming a complex with Rae1 (RNA export 1) and Nup98 (nucleoporin 98)." October 8, 2020 published research article - Molecular mechanism underlying selective inhibition of mRNA nuclear export by herpesvirus protein ORF10

Germany and the WHO chose to use the patented herpes ORF10 protein encoded SARS-CoV-2 virus to ensue the novel CoV would reinfect (relapse) everyone who was vaccinated for years to come.

SARS-CoV-2 is very similar to SARS. What is different is what made it a novel SARS coronavirus (SARS-CoV). What's different is a protein that is exclusively/only found in SARS-CoV-2 genome and not in SARS-CoV or any other human coronavirus. SARS-CoV-2 genome contains the human herpes virus protein ORF10.

BioNtech vaccines are known to cause severe bodily injury and death. The purpose of a biological warfare (act of war) attack. BioNTech SE disclosed in SEC FORM F-1 REGISTRATION STATEMENT that its vaccine can cause severe side effects and death.

"Common adverse events included flu-like symptoms."

"use of our product candidates could be associated with side effects or adverse events which can vary in severity from minor reactions to death and in frequency from infrequent to prevalent (widespread). The potential for adverse events is especially acute in the oncology setting, where patients may have advanced disease, have compromised immune and other systems and be receiving numerous other therapies."

page 23 BioNTech SE's SEC FORM F-1 REGISTRATION STATEMENT

"In addition, these side effects may not be appropriately recognized or managed by the treating medical staff. We expect to have to train medical personnel using our product candidates to understand the side effect profiles for our clinical trials and upon any commercialization of any of our product candidates. Inadequate training in recognizing or managing the potential side effects of our product candidates could result in patient injury or death."

"The most frequent adverse events included administration-site conditions, infections and infestations, musculoskeletal and connective tissue disorders, nasopharyngitis (commonly known as a cold.), fatigue, headache and back pain." BioNtech

Charges of high treason and treason are warranted and need to be laid against you, Justin Trudeau and Chrystia Freeland, Ontario Premier Doug Ford, Alberta Premier Jason Kenney and other co-conspirators for assisting Germany (a foreign government and an enemy of Canada in WWI and WWII) and the WHO (foreign entity) wage COVID-19 biological warfare (act of war) against Canada.

There is ample evidence showing Germany sponsored the biological warfare attack. German Chancellor Angela Merkel Pledged 600 Million Euros January 31, 2020 (day the UK formally left Germany's EU) to fund the COVID-19 biological warfare attack. Stated purpose of Germany sponsoring the biological attack - "It's an amazing start to what's going to be a huge year for worldwide support of vaccinations."

Germany and the WHO began conspiring in 2017 to stage a worldwide biological warfare attack to save the insolvent Germany and the UN.

"We conducted a (pandemic) simulation exercise during our meeting in Berlin in May 2017 in close cooperation with the World Health Organization (WHO), ... The international community needs to fully support the WHO in order for the organization to be able to fulfill its role, including in capacity building and in preparing for and responding to health emergencies. In this respect, we acknowledge that WHO's financial and human resource capacities have to be strengthened, including through adequate and sustainable funding for the Health Emergencies Programme and the WHO Contingency Fund for Emergencies (CFE)." Berlin Declaration of the G20 Health Ministers

The UN being insolvent was made perfectly clear in October 2019 in a statement by the Secretary-General about "the worst cash crisis facing the United Nations in nearly a decade. The Organization runs the risk of depleting its liquidity reserves by the end of the month and defaulting on payments to staff and vendors." UN Secretary General Antonio Guterres, The UN declaring it was insolvent was made just months before start of Germany sponsored COVID-19 biological warfare attack.

News articles reported 21 February 2020 that Germany's EU was insolvent too. "A summit of EU leaders seeking to fill a €75bn hole in the bloc's budget left by Brexit dramatically collapsed after Angela Merkel led major contributors in rejecting a proposal that would have left them paying billions more."

"The UK's departure has left EU states struggling to fund plans over the next seven

years to tackle the climate emergency, aid poorer regions and continue to subsidise farmers through the common agricultural policy.” The Guardian

When Chrystia Freeland joined Germany formed and lead alliance to save the International World Order/UN (WHO) from destruction in April 2019, Justin Trudeau, Chrystia Freeland, Germany and their co-conspirators knew that there was only one way to save an organization like the United Nations Organization (UNO). By giving the UNO \$billions.

However, Canada, the USA, the UK and other non-EU countries couldn't just hand over \$billions to the UNO so Germany, the WHO, the World Economic Forum, Bill Gates, and Event 201 players stage/lead the COVID-19 plandemic to cover up the theft of \$billions for the insolvent Germany EU and its International World Order/UN.
